

PEARL iZUMi 24 Hours Cycling (Le Mans)

No more bibs available for this 10th edition!

The organization had announced in November that participation would be limited for this 10th edition, next 25th and 26th August on the Le Mans circuit.

The audience will be there! Faithful riders or novices, the 520 teams allowed to take the start of the 2018 vintage were all registered by the end of May, two months before the usual closing date of registrations. The 2458 riders, who have obtained the precious bib, can still complete their registration until 22nd July to take part in the "10 years Aperitif", followed by the "Barbecue Party", the scheduled unmissable appointments to celebrate this anniversary from Friday evening.

As a promise is a promise, each participant will receive this "10 ans" stamped collector's jersey! (See picture) By the way, the Facebook community of the Pearl Izumi 24 Hours Cycling of Le Mans with more than 9000 fans, has been solicited to vote for her favorite model. Each rider is invited to play the game wearing this jersey during the mandatory briefing and the following group formation lap: guaranteed thrills before the start of these two clock rounds...
